INDUSTRY GUIDE

>Postal
Solutions

SOLUTIONS AND PRODUCTS FOR THE GLOBAL POSTAL INDUSTRY

CUSTOM SOLUTIONS

Datalogic manufacture custom machines built to address the most demanding operational challenges.

For over 25 years, global postal organizations have entrusted the responsibility for materials handling design, integration and implementation of critical application to Datalogic. This experience has earned Datalogic recognition throughout the Postal industry as a quality supplier of innovative products, value-added engineering and effective project management.

PACKAGE AND PACKET SORTING SYSTEMS

Datalogic integrates cross belt, tilt tray, shoe sorter, RSU, and other technologies

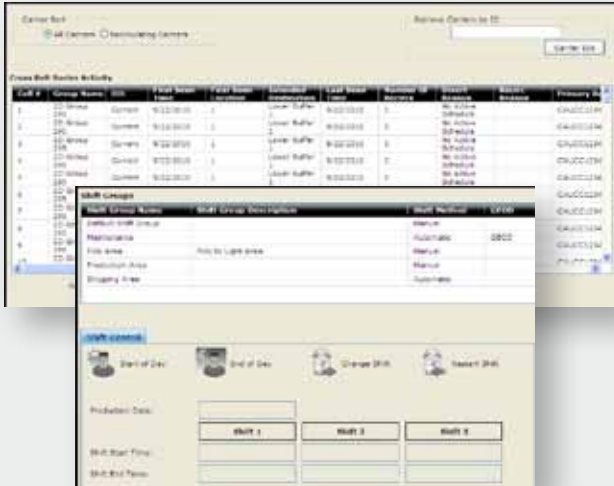

MATERIAL HANDLING AND CONTROLS

Datalogic's conveyors are fully controlled including scan and divert as needed.

INFORMATION SYSTEMS

Control panels provide system feedback, database management, and interfaces to upper level systems including OCR engines.

PARCEL AND POSTAL AUTO-ID SOLUTIONS

Datalogic provides parcel and postal auto-ID solutions for global postal applications that range from simple to highly complex.

DIMENSION WEIGH SCAN (DWS) SYSTEMS

Datalogic's DWS systems are a turnkey solution to dim-weight applications.

We understand the Postal business.

Datalogic's Postal Systems Group has developed effective solutions for parcel and mixed mail sortation, labeling, shipping, manifesting and inventory systems. Key to these solutions is our consulting services based on over 25 years of servicing the Postal industry. We can also provide design, engineering, installation, training, on-site service support, and project management.

We stand behind what we deliver.

Datalogic has technical support capabilities that are second to none, with a staff that spans the globe and a hotline that is open 24 hours a day, 7 days a week. Also offered are programs for preventive maintenance and training, along with service contracts and warranties that can be customized to meet your specific needs.
